

Camp del Corazon

Camper Waitlist Policy

- Your child's space will be reserved in your chosen session, only once the **parent portion** of the application is 100% complete
- When we reach capacity for a session, we will add a Waitlist option for that Session to the application
 - Waitlist is first come, first served
 - We cannot guarantee how many spaces will become available in any given session
 - You can keep a space in another session and be on the waitlist for another.
- Waitlisted campers will be offered spaces as they become available
- The Cardiology form deadline is **July 15th**
 - If no form has been received by **July 15th**, and no direct communication with the office has been made, your space will be offered to a waitlisted camper.
 - After **July 15th**, once we do have your cardiology form, you will be added to the waitlist for your chosen session.
- Waitlisted campers cannot be offered spaces until their application is 100% complete - both the **parent portion and cardiology form**.
 - Many waitlisted campers will receive a spot in their desired session, however we cannot guarantee how many spaces will become available in any given session
- You are always welcome to call the office and check on your camper's Waitlist status
